The VFAA was formed in 2004 in order to keep the NFAA in Virginia.
The VFAA appreciates those of you that have supported us and the NFAA.
We would like all Virginia clubs to charter with the NFAA, but we also
know that until the current officers and directors of the VBA accept the fact
that the VFAA has done a good service for the archers in Virginia that want
to continue to be associated with the NFAA, we will have to settle for what
we have. It is a strange thing, that some of the people that caused the
problems in Virginia with the NFAA have joined the NFAA in West
Virginia? They caused the problem then cut and run? Go figure?
